Dear Harold,

Thanks for your mailings of 9/24, 27, and 30.

Re Simmons' list of recently "cleared" CD's: I would be quite surprised if the pages from CD's 5,6,7, etc. which are listed as withheld on my list are now available. (Could you check this?) I gather that they are being more helpful to me than to you.

Enclosed: 2 copies of retyped Hubert to Willens 4/8/64 on Ruby, and (only) 1 copy of original. (My "original" is a Xerox copy of microfilm printout, so the Archives copy is probably quite legible, if you want to get it.) I don't think there is a followup memo on this in the SS file, but I am not sure; I wouldn't expect them to be adjacent pages.

I would rather not name our source of this list of men arrested in the Lacombe raid, but your first guess would probably be correct. Our list is identical to yours, except Byron Chiverton is also on it. We have Acelo Pedros Amores; Jim S's memo was apparently quoting Bill Turner's article. We are getting pretty good service on the name files but I agree that it would be best for you to check them, especially because of the possibility of misfiling under similar names. I would like a copy of the list of Stuckey's articles from your Training Camp file. I will get CD 1245, pp. 274-5 from JNS and send you a copy.

More on Davison in enclosed memo, and letter to Gary. I have ordered all of the CE 2705 file, but you might want to look at other sections of the State files for reference to Davison. The Russian documents on Penkovsky which I do not have are probably most readily available in Washington. Why did you infer Davison was/is a bachelor? I expect that Marina was a more likely candidate for his sympathy and/or other interest than Lee.

The pages from CD 555 (pp. 75-80), which I didn't have when I wrote the memo, establish that J. Walton is G. Walter Moore. Those pages - which I think you both have - are worth rereading. The FBI was really leaning on DeM. The phrasing at the top of p. 80 suggests that Moore might have been with the Justice Department, but not the FBI. Doesn't seem likely - who might that be?

Sincerely,

Paul
